The Intelligencer has secured the complete and official returns as canvassed by the several county courts, in all of the fifty-five counties of West Virginia, without exception, and the compilation of the figures is presented to Intelligencer's readers this morning. The plurality of President McKinley, 21,063, is considerably in excess of the brightest expectations of the Republican leaders, and 10,000 more than the majority McKinley got in this state four years ago.

Governor White ran behind McKinley, but that was to be expected in any event, and besides it has just come to light ~~shortly~~ before the election Mr. White gave out the word that his friends might trade him off in close counts for votes for the legislature if considered advisable. This was a very generous and unselfish act upon the part of Mr. White, and shows just how good a party he is. As things turned out, however, no trading was needed at any point along the line, with the exception of Monroe county, where Mr. White went in on a slim margin, probably through the generalship shown by Mr. White.

It was thought that Captain Dovener's majority of 5,034 in the First congressional district would be the banner majority of the four districts, but the majority of Mr. Gaines, in the Third district, is by a large margin the largest of the four, being 6,570 over Congressman Johnson. When four banner Republican counties like McDowell, Kanawha, Fayette and Upshur are aligned into the same congressional district something is sure to happen—to the unfortunate Democrat who runs for Congress. Congressman Dayton's plurality in the Second district is 2,388, and Mr. Hughes' in the "Shoe String," or Fourth district, is 3,725.

In the senatorial districts, the majority of Mr. Davis, in the Eleventh district, is the largest, being 4,567 this time. Harmer's majority in the Third district is the second largest, and George's, in the First district, comes next. Of the thirteen senatorial districts, the Republicans carry eleven and the Democrats two.

PRESIDENT.

The returns for President, are as follows, but some of the counties did not

The Oldest and Best.

S. S. S. is a combination of roots and herbs of great curative powers, and when taken into the circulation searches out and removes all manner of poisons from the blood, without the least shock or harm to the system. On the contrary, the general health begins to improve from the first dose, for S. S. S. is not only a blood purifier, but an excellent tonic, and strengthens and builds up the constitution while purging the blood of impurities. S. S. S. cures all diseases of a blood poison origin, Cancer, Scrofula, Rheumatism, Chronic Sores and Ulcers, Eczema, Psoriasis, Salt Rheum, Herpes and similar troubles, and is an infallible cure and the only antidote for that most horrible disease, Contagious Blood Poison.

A record of nearly fifty years of successful cures is a record to be proud of. S. S. S. is more popular today than ever. It numbers its friends by the thousands. Our medical correspondence is larger than ever in the history of the medicine. Many write to thank us for the great good S. S. S. has done them, while others are seeking advice about their cases. All letters receive prompt and careful attention. Our physicians have made a life-long study of Blood and Skin Diseases, and better understand such cases than the ordinary practitioner who makes a specialty of no one disease.

We are doing great good to suffering humanity through our consulting department, and invite you to write us if you have any blood or skin trouble. We make no charge whatever for this service.
